

Product Specification Sheet

Lite Adjustable Shock Absorbing Lanyard – Twin Leg

Item Code(s): SPDA-0101 & SPDA-0102

The LITE shock pack lanyards are designed for a range of work at height activities. Two-ply webbing construction, the lanyard balances flexibility, durability and is fitted with a simple to adjust buckle.

The compact energy absorber offers safe impact forces for a wide range of users and includes a durable pouch; protecting the tear webbing from abrasion and light contaminants.

Specs:

- Tested & approved to max weight of 130kg
- Integrated ring for 'clip-back' stowage of lanyard legs
- Can be fitted with karabiners, scaffold hooks or snap hooks
- Dual layer webbing to improve durability and resistance to cutting
- Available in 1m, 1.5m & 2m lengths

Technical Features

- Standard: EN355:2002 & EN354:2010
- Compliance: CE & UKCA
- Max user weight: 130kg
